

Division of Work: 2011-13

(Assignment of jobs to each member of IAPCOI)

As decided in the first meeting of IAPCOI at Mumbai on July 16th 2011, the individual member of COI is now assigned the job of reviewing the available licensed vaccines as per the distribution cited below. They will be assisted/guided by their respective experts as shown in table 1. The advisors shall identify the gaps in knowledge and contentious issues regarding each vaccine.

The review shall include the following:

1- Collate all the recent data on individual vaccines:

- Burden of disease-recent updates based on review of literature (national & global);
- Summation of the published literature on individual vaccine in last 6-12 months;
- Brief report of any cost-effective analysis published in last 6-12 months;
- Clinical trials: ongoing/planned/completed;
- New recommendations from other agencies;
- Contentious issues, if any.
